“The categories in sequence below reflect the rough chronology of my developing interests, from the 1960s to the present. I continue to have an interest in, and continue to write in, earlier fields, such as economic history (categories 1–6)—my 2010 book, for example, *Bourgeois Dignity: Why Economics Can't Explain the Modern World*, tests the explanations for the Industrial Revolution ...

Deirdre McCloskey: Articles

Geographical or environmental factors, such as landscape, flora and fauna, are obviously of some importance in explaining why history unfolded differently on different continents.

GGR 329H5F: Environment and the Roots of Globalization

The Chicago school of economics is a neoclassical school of economic thought associated with the work of the faculty at the University of Chicago, some of whom have constructed and popularized its principles.. In the context of macroeconomics, it is connected to the "freshwater school" of macroeconomics, in contrast to the saltwater school based in coastal universities (notably Harvard ...
