TRADITIONAL LOGIC - scottmsullivan.com

A syllogism (Greek: ?????????? syllogismos, "conclusion, inference") is a kind of logical argument that applies deductive reasoning to arrive at a conclusion based on two or more propositions that are asserted or assumed to be true.. Some of the earliest syllogisms are defined in the Nyaya school of thought. In a form, defined by Aristotle, from the combination of a general ...

Syllogism - Wikipedia

The categorical imperative (German: kategorischer Imperativ) is the central philosophical concept in the deontological moral philosophy of Immanuel Kant. Introduced in Kant's 1785 Groundwork of the Metaphysics of Morals, it may be defined as a way of evaluating motivations for action.. According to Kant, sentient beings occupy a special place in creation, and morality can be summed up in an ...

Categorical imperative - Wikipedia

Extending the logic of the simple logistic regression to multiple predictors (say X_1 = reading score and X_2 = gender), one can construct a complex logistic regression for Y (rec-

An Introduction to Logistic Regression Analysis and Reporting

We have four X values (outlook,temp,humidity and windy) being categorical and one y value (play Y or N) also being categorical. so we need to learn the mapping (what machine learning always does ...

1. Life, Work, and Influence. Born in 1770 in Stuttgart, Hegel spent the years 1788–1793 as a student in nearby Tübingen, studying first philosophy, and then theology, and forming friendships with fellow students, the future great romantic poet Friedrich Hölderlin (1770–1843) and Friedrich von Schelling (1775–1854), who, like Hegel, would become one of the major figures of the German ...
