## **CPR / AED - Introduction | NationalCPRFoundation.com | CPR**

Cardiopulmonary resuscitation (CPR) is an emergency procedure that combines chest compressions often with artificial ventilation in an effort to manually preserve intact brain function until further measures are taken to restore spontaneous blood circulation and breathing in a person who is in cardiac arrest. It is recommended in those who are unresponsive with no breathing or abnormal ...

With this science project, you can help get the word out, too, and train people to do Hands-Only CPR. You'll create a simple, interactive computer program to teach people how saving a life can be as simple as putting your hands together and pressing firmly to the rhythm of a 100-beats-per-minute song.
