X-RAY DATA BOOKLET. Center for X-ray Optics and Advanced Light Source. Lawrence Berkeley National Laboratory

X-Ray Data Booklet

X-rays make up X-radiation, a form of electromagnetic radiation. Most X-rays have a wavelength ranging from 0.01 to 10 nanometers, corresponding to frequencies in the range 30 petahertz to 30 exahertz (3×10^{16} Hz to 3×10^{19} Hz) and energies in the range 100 eV to 100 keV. X-ray wavelengths are shorter than those of UV rays and typically longer than those of gamma rays.

X-ray - Wikipedia

An X-ray generator generally contains an X-ray tube to produce the X-rays. Possibly, radioisotopes can also be used to generate X-rays. An X-ray tube is a simple vacuum tube that contains a cathode, which directs a stream of electrons into a vacuum, and an anode, which collects the electrons and is made of tungsten to evacuate the heat generated by the collision.

Test Overview. A chest X-ray is a picture of the chest that shows your heart, lungs, airway, blood vessels, and lymph nodes. A chest X-ray also shows the bones of your spine and chest, including your breastbone, your ribs, your collarbone, and the upper part of your spine. A chest X-ray is the most common imaging test or X-ray used to find problems inside the chest.

Introduction At the Kobe 2006 general meeting of the IMA, the council endorsed the development of an interactive web-site that presented the "official" IMA list of minerals. Essentially this list contains the names of minerals that have been deemed sufficiently characterized to enable their identification through a variety of methods.

When developing more complex models it is often desirable to report a p-value for the model as a whole as well as an R-square for the model. p-values for models. The p-value for a model determines the significance of the model compared with a null model. For a linear model, the null model is defined as the dependent variable being equal to its mean.

R Handbook: p-values and R-square Values for Models

Mississippi State University is an equal opportunity institution. Discrimination in university employment, programs or activities based on race, color, ethnicity, sex, pregnancy, religion, national origin, disability, age, sexual orientation, genetic information, status as a U.S. veteran, or any other status protected by applicable law is prohibited.
