4.Click on ‘AP – OneKey Setting’ button 5.Wait a few seconds and you will see the status site like below. It means your Wi-Fi Repeater is ready for use.

Introduction Getting Started How to configure the Wi-Fi

Wireless communication, or sometimes simply wireless, is the transfer of information or power between two or more points that are not connected by an electrical conductor.The most common wireless technologies use radio waves.With radio waves distances can be short, such as a few meters for Bluetooth or as far as millions of kilometers for deep-space radio communications.

Wireless - Wikipedia

Duo Security is now required for all HCM, FIN and VPN users.
