Introduction. This manual is the basic textbook for anyone writing an ASTM standard. A study of Parts A, B, C, or E will show the proper form for the principal types of standards including a detailed explanation of how to write each section, from the title to the appendixes. Within Parts A, B, C, and E, the first section lists the preferred sequence of headings and indicates whether these ...

Biography. I was born in St. Louis, Missouri, and grew up in the suburb of Webster Groves. From 1980-84 I attended Carleton College, and from 1984-90 I was a graduate student at Stanford University, where I spent most of my time at the Stanford Linear Accelerator Center. I taught physics at Pomona College for one year and at Grinnell College for two years before coming to Weber State in 1993.

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.
