stephen velasco Says: 01/31/2013 at 9:09 am. Great news! Have you seen whether or not the “print to pdf” option brings all the metadata over? My difficulty (since 2007) has been, if you create a doc library with custom columns (anything outside the normal MS document properties) and have a Word content type – fill out the extra custom metadata fields and then convert to .pdf.
