SDHI fungicides were discovered more than 40 years ago. Due to the limited disease and application spectrum of the “first generation” carboxamides, resistance under commercial conditions remained limited to a few crop/pathosystems (primarily Basidiomycetes), e.g. Puccinia horiana, chrysanthemum rust, and Ustilago nuda, loose smut in barley. In addition to these “first generation ...

According to the National Institute of Standard and Technology (NIST) , a smart grid is composed of seven logical domains: bulk generation, transmission, distribution, customer, markets, service provider, and operations, each of which includes both actors and applications. Actors are programs, devices, and systems whereas applications are tasks performed by one actor or more in each domain.
